**Lecture**

Classes will include lectures, group exercises, and discussions of videos and short cases. Some individual exercises may be completed during class, but most will be completed outside class. All group exercises will be completed during class, and obviously cannot be made up individually later—you will simply not get credit for those missed group exercises. For all classes other than the first class, you are expected to have read the assigned chapters before class each week. This will enable you to participate in any exercises and to ask questions about material you didn't understand.

Students will perform job evaluations and design simple point method job evaluation plans. In addition, students will design base pay systems and variable pay for performance plans. Such activities help students appreciate how the knowledge taught in this course can be applied.

There will be one midterm examination and a final examination. The examinations will consist primarily of multiple choice questions, short answers, and short essay questions or exercises. The examinations will cover all of the assigned readings, even if the material was not discussed in class. In addition, you may be tested on information introduced in lectures, videos, or cases, but which is not covered in the textbook.

**Evaluation**

The final grade will be based on one critical incident paper, a critical incident presentation to the class, a participation grade, and midterm and final examinations.

**Course Policies**

**Webster University Course Attendance Policy**

(Effective Summer 2014)
The University reserves the right to drop students who do not attend class the first week of the term/semester. Students are expected to attend all class sessions of every course. In the case of unavoidable absence, the student must contact the instructor.

The student is subject to appropriate academic penalty for incomplete or unacceptable makeup work, or for excessive or unexcused absences.

A student who misses more than one four-hour course period (per course) without a documented military or medical excuse and advance permission from the instructor should withdraw from the class within the time period allowed for withdrawals. (http://www.webster.edu/catalog/2013-2014/graduate-catalog/enrollment.html)

Excused Absences

The instructor should encourage students to notify him or her prior to class if an absence is anticipated. If a student is absent, the instructor shall assign makeup work to cover the materials presented that week.

If a student has two absences, the instructor has the option to lower the student's grade one letter grade and to inform the student of the action.

If a student has three absences, the instructor has the option to assign a grade of F and to inform the student of the action.

It is the student's responsibility to withdraw from the course. In an extreme case, when the instructor chooses to award a grade of I (Incomplete) for three or four absences, the student must provide acceptable documentation to verify that the absences were unavoidable (e.g. illness, work conflict, military temporary duty). Faculty should contact the director or department chair to determine the procedures required for this option.

If a student is absent for a fifth class, with or without acceptable documentation, the instructor is to inform the student that his or her grade for the course is F. It is the student's responsibility to withdraw from the course.

Unexcused Absences
If a student is absent, the instructor is to assign makeup work, which may exceed the material presented that week. If a student has two absences, the instructor has the option to lower the student's grade one letter grade and to inform the student of the action. If a student has three absences, the instructor has the option to assign a grade of F and to inform the student of the action. It is the student's responsibility to withdraw from the course.
